Establishment of Foreign Resident Consultants (Tagalog)

Since 2007, Portuguese speaking consultants have been stationed at the Development and Promotion Bureau to deal with administrative consultation for foreign residents, who are increasing in number and settling down in Gifu prefecture.

Recently, the ratio of Filipino nationals amongst registered aliens is increasing. Filipino neighborhoods are increasing, particularly in, Gifu city, Minokamo and Kani.

Accordingly, through application of the “temporary national emergency job creation project fund”, two new Tagalog speaking consultants, who also speak English, are being hired. As such, Gifu prefecture is sending out notice that from August, Filipino consultants will be stationed at the Gifu and Chuno Development and Promotion Bureaus in Gifu and Minokamo, both of which have large Filipino populations.

The placement of Tagalog speaking administrative consultants is a new initiative of Gifu prefecture.
